'Last Christmas we had lots of guests to stay, and the AeroBed was so easy to inflate and then store away.'

SLEEP EASY

Need an extra bed for family or friends coming to visit over the holidays? Take a look at the AeroBed, which inflates in less than a minute and deflates in under 15 seconds, so you can pack it away without hassle. A one-touch control adjusts the firmness of the bed, and its coil system provides reliable support and keeps air evenly distributed for comfort that lasts all night long. It also comes with a fitted sheet and handy carry bag, and standard-sized sheets will fit.
